July 2004 – Nov 2005

- **Virgilio News:** designed architecture and managed project team of news search engine. Managed a team of two people.
- **Virgilio Shopping:** reengineered Virgilio e-commerce product search engine. Managed a team of two people.

ALTRAN

May 2002 – June 2004

(Organizational and IT Consulting, multinational French group; Milan area)

Senior Consultant

- Client: **Giorgio Armani**
- Gathered requirements, designed and developed a SOA in order to integrate information flows of orders/confirmations/shipments/invoices among Headquarters (Milan) and 65+ global agents/distributors. The system enabled HQ to monitor sales of global agents/distributors weekly with a fine level of granularity
- Applied Technologies: **Java, Servlet, JSP, JDBC, XML/DOM, ORACLE, AS400, PL/SQL, Ruby**

Consultant

- Client: **Deutsche Bank**
- Designed and developed web based phone-banking and trading-on-line applications
- Applied Technologies: **CORBA, Java EE, Java, Servlet, JSP, Swing, JDBC, XML/DOM, CORBA**

EPTA SIM (after acquired by Webank)

(Stock trading company; Milan area)

July 2001 – May 2002

Lead Developer: Designed and developed the server side project for one of the top Italian on-line trading platforms; after a performance tuning project, executed orders grew up from 3.700 per day to 5.000+ per day.

Applied Technologies: **Java, Servlet, JSP, JDBC, XML/DOM, Oracle, Apache Jakarta Velocity, Apache Jakarta Turbine, JMX, Vignette**

PONTON CONSULTING

(German IT consulting company; Milan area)

Sep. 2000 – July 2001

Software Engineer: Participated at the European Commission financed eLegal project. In collaboration with colleagues published papers and books.
